

Protegrity's Essentials Training

Duration: 36 hours (4.5 full days or 9 half-days)

Audience: Security and governance officers, managers, developers, solution architects, database administrators, and system administrators

Prerequisite: None

Certificate of Completion: Yes

Description:

Learn about Protegrity, its core products and get a detailed perspective of the Protegrity architecture. Learn how to create and manage a data security policy, key management, and learn about the Protegrity platform installation and configuration process.

This training includes demos, knowledge checks, and hands-on labs.

Agenda:

- Protegrity's Data Protection Fundamentals
- Protegrity's Enterprise Security Administrator (ESA)
- Protegrity's Data Protection Gateway (DSG)
- Protegrity's Application Protector for Java
- Protegrity's Database Protector for Oracle or MS SQL Server
- Protegrity's Cloud API on AWS
